

PNNL Lab Day

Pacific Northwest National Laboratory (PNNL) Lab Day is designed for undergraduate and graduate students in the Pacific Northwest who will benefit from a greater understanding of international safeguards technologies and engagement with PNNL experts.

EVENT DETAILS

- » **Who:** Regional university students
- » **What:** Half-day introductory nuclear safeguards course
- » **When:** May 14th, 2021
- » **Where:** Virtually via Zoom
- » **Why:** To introduce students to the topics of nuclear nonproliferation and international safeguards and familiarize them with PNNL.

OBJECTIVES

This 1-day course features flash-topic seminars that provide introductory knowledge on various nonproliferation and safeguards topics.

Highlights of PNNL's Lab Day include:

- » Engage and network with safeguards experts
- » Learn about internship opportunities
- » Gain introductory knowledge on nuclear safeguards technology, safeguards policy and concepts, environmental sampling, and data analysis and safeguards.

HOW TO APPLY

An application for will be posted on the Nonproliferation Portal at nonproportal.energy.gov in March 2021.

Registration will be open until April 10th, 2021.

This course is FREE to university students who are accepted.

Send any questions with respect to logistics or course content to Lab.Day@pnnl.gov.
